TotalEnergies EP Namibia

Renewables: TotalEnergies consortium selected for the Okatope solar project in Namibia

Windhoek, September 22, 2026 – TotalEnergies, alongside its partners ANIREP and Sinco Investment, has received a Notice for Selection of Award from NamPower for the development of the Okatope 20 MW solar photovoltaic (PV) project in Namibia's Oshikoto Region.

The award follows NamPower's international tender process under the Modified Single Buyer framework. Located near Okatope, the facility will generate around 64 GWh/year of renewable electricity and will meet the annual needs of approximately **50,000** Namibian households.

"This award reflects TotalEnergies' commitment to supporting Namibia's energy development through a multi-energy approach. Together with NamPower and our partners ANIREP and Sinco Investment, we look forward to delivering a project that will contribute to the country's electricity supply while supporting the growth of renewable energy generation," said **Mariam Kane-Garcia, Managing Director of TotalEnergies EP Namibia and Country Chair**.

"I am pleased that the JV has received the Notice for Selection of Award for the Okatope project. We look forward to working with NamPower and our partners, TotalEnergies and Sinco, to conclude the power purchase agreement and to deliver another solar project under the Modified Single Buyer framework" said **Iyaloo ya Nangolo, ANIREP Managing Director**. The JV recognises the need for innovative structures and funding models to serve private-sector customers, and we see further opportunity in the aggregation model in Namibia and the wider SADC region. HopSol Africa, the JV's technical partner and the Company's EPC and O&M subsidiary, continues to be involved in the construction of solar PV plants in Namibia, complementing ANIREP's IPP capability."

About TotalEnergies in Namibia

TotalEnergies has been present in Namibia since 1964 and employs around 70 people. TotalEnergies is also the 3rd largest fuel distributor in the country, with 43 service stations. In line with its multi-energy strategy, the Company is looking for local opportunities to develop low carbon projects in the country. The Company operates PEL56, PEL83 & PEL91 and is progressing the completion of its entry as operator into [PEL104](#).

About TotalEnergies

TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas, biogas and low-carbon hydrogen, renewables and electricity. To date, TotalEnergies has interests in 37 GW of gross renewable capacity, and aims to reach a worldwide net electricity production of more than 100 TWh by 2030.

Our more than 100,000 employees are committed to providing as many people as possible with energy that is more reliable, more affordable and more sustainable. Active in about 120 countries, TotalEnergies places sustainability at the heart of its strategy, its projects and its operations.
